

## ENVIRONMENTAL POLICY

**ACI Group Ltd** is committed to developing only those activities and services which demonstrate respect for the environment and commitment to sustainability.

The Company operates this Environmental Policy, with the objective of satisfying our customers' needs whilst seeking to reduce environmental impact.

**ACI Group Ltd** also encourages staff to actively participate in implementing the environmental values of this Policy.

The Company commits to:

1. Pursue a more sustainable business model, constantly evaluating the levels of consumption and waste management processes, to maintain control of their impact on the environment.
2. Comply with environmental legislation applicable to the company, to meet all UK legislative requirements for the environment, waste treatment and disposal, as well as social responsibility requirements, safety and risks.
3. Ensure continuous improvement and environmental efficiency of production processes, to remain committed to the environment and for dissemination of more sustainable habits.
4. Encourage our employees to respect the environment and will seek to promote the recycling of wastes which are recoverable.
5. Undertake actions to reduce our levels of use of resources like water, energy and fuel.

**ACI Group Ltd** does not directly manufacture products, but it extends its environmental policy and actions to all suppliers with whom it works. It will obtain information to support this policy from suppliers if necessary and periodically evaluate suppliers.

**ACI Group Ltd.** is committed to the environment, to ensure its continued improvement, and to making our company increasingly respectful of natural resources and preventing pollution.

The Company will be open in its relationship with stakeholders, to reinforce its commitment to conserve the environment and work towards sustainable development.
